7004

Lumina® Laminate: Premium Cast, Optically Clear Adhesive

Lumina 7004 Series is a premium grade cast vinyl laminate designed for use over cast, perforated window and reflective vinyl films to provide protection from UV exposure, chemicals and abrasion. This product features an optically clear adhesive providing superb clarity.

Key Features

Film Technology: Cast
Film Thickness: 2.0 mil.
Media Color: Clear
Finish: Gloss
Blockout: N/A
Outdoor Durability: 5 Years

Adhesive / Color: Permanent / Optically Clear

Liner: 1.2 mil. PET
Conformability: Flat Surfaces, Curves, Rivets and Corrugations

Processing:

Computer Cut: Yes
 Steel Rule: Yes
 Thermal Die: Yes
 Flat Bed: Yes
 Sheetable: N/A
 Laminate: Yes / Cold

Shelf Life: 1 Years

Printing:

Thermal Transfer: N/A
 Solvent / Eco Solvent: N/A
 Latex: N/A
 UV Inkjet: N/A
 Screen: N/A

Installation:

Wet Apply: N/A
 Minimum Application °F: 50 °F
 Interior / Exterior: Interior and Exterior

EXPERTISE IN SELF-ADHESIVE FILMS

This self-adhesive digital printing film with high opacity is white on both sides. Due to a very high opacity (but not 100%) digital prints do not shine through the film. This makes it ideal for applications on glass where the white reverse side is optically more attractive than the grey or black colour of other blackout films. In combination with a reversely printed clear digital printing film glass surfaces can be used for double sided advertising that is applied from inside the glass.

Key Features

Film Technology: Calendered
Film Thickness: 6.3 mil.
