ColorByte ImagePrint for 7900/9900

We would be more than happy to show you this great **visual** RIP software in action any time at JVH. ImagePrint v8 gets **everything** out of the Epson 7900/9900 printers that they're capable of.

"Color Byte is happy to announce Image-Print 8 for the Epson 7900/9900 printers. These drivers are the first to incorporate a **brand new color engine** capable of fully using the expanded gamut of HDR inks. This innovative technology allows you to maximize the color and **dynamic range** of different paper types like never before. We are seeing as much as **40% more color volume** than with X880 series printers.

Version 8 is one our most exciting releases yet which includes full custom **vector text generation** and editing. You can enhance images with **frames, borders and matting.** For those who print on canvas. ImagePrint 8 will create the **Gallery Wrap** for you. There is a totally **new spooling system** with sorting and searching. page thumbnails of every job. and **archiving** and **retrieval** support. It also features our latest **Dynamic Contrast Matching** technology that will dramatically improve the quality of your prints in both color and black and white."
- ColorByte Software

"Printing should not be a torturous and uncertain task for the photographer. ImagePrint 8 lifts the burden of print-making from the shoulders of the photographer and delivers print quality **unrivaled.** What you see on the screen on your calibrated monitor is what is delivered to the surface of the print. With the right lighting. the images produced by Image-Print 8 are every bit as luminous and radiant in the gallery as what was seen on the screen — a true joy to see your work hanging on the wall looking "right."
- Pete Meyers

Launch of Epson's Newest Package Proofing and Prototyping Media

Epson has just announced the launch of **Carolina Cover and Tango Blanks Packaging Boards**. These thick 18 point boards provide the base color and characteristics needed for package prototyping and mock-ups. All sizes of these media are shipping from Epson and will be in at JVH Technical in Bellevue by the end of December. Available in boxes of 17" x 24" and 24" x 36" sheets.

Merry Christmas!
