Imacon 949 Demo Day, Thursday, May 27

Give your images the scanner they deserve. See the brand new Imacon 949 scanner in action. The best just got **better** — in just one sq. foot of desk space you can get better performance than a conventional drum scanner:

- **200 MB/minute** scan speed
- **4.9 Dmax**
- **3000 ppi** resolution
- **Intelligent** dust and scratch removal
- **Unapproachable** negative scanning
- **Optional bulk slide feeder**

Demos of the **complete** Imacon line will be at JVH Technical in Bellevue, WA every hour on the hour from 9:00 am - 5:00 pm. RSVP to Kathy, Ryan, or John at tel 425.643.7323 or jvhman@aol.com

Epson Stylus Pro 4000 Printers Shipping

We have received 22 new Epson 4000 17"-wide printers at JVH. These have filled about 1/3 of our backlog list. We will see more units from Epson in May and expect our full backlog to be filled over the next 90 days. Let us know if you want to get your name on our **preorder list**.

ColorByte ImagePrint 6.0 Update

We are just about there! ColorByte tells us the new 6.0 software for Mac and PC is going to be released by the end of **this month**. It has taken much longer than expected, but you know it will be right when you finally get your hands on it. If you purchased ColorByte from JVH and are eligible for a free update, we will request the **new 6.0 encryption** and **CD** for you.

Onyx PosterShop 6.0 AutoUpdate

The new AutoUpdate feature checks your Onyx 6.0 RIP installation and then downloads only the software updates you need. It updates both Onyx 6.0 applications and printer drivers. It can roll back updates if you don't want them. You can download the AutoUpdate application from the website <http://www.onyxgfx.com>

New updates are already available, including RIP speed increases, an updated Postscript/PDF RIP, bug fixes, a new Winkey/HASP driver, support for the Epson 4000 printer, and better-looking program icons. Get Onyx AutoUpdate now and enjoy the free updates!

Digital Festival in Bellevue, WA Sept 15-16

Mark your calendar! We are bringing back that lovable teddy bear **Bruce Fraser**, author of Real World PhotoShop and RW Color Management. Experts from **Imacon**, **ColorByte**, **Onyx**, **Epson** and **Seal** will all be here. Learn more about high-end scanning, Photoshop CS, color management, large-format digital printing and print finishing. Also learn innovative **guerilla marketing ideas** to develop burgeoning lucrative markets, increase sales, and enhance your customer service.

This Festival will be **interactive**. We want our experts to address and answer **your questions/topics** instead of giving you lectures. We are asking our customers to submit any questions they would like answered by the experts. You can send these to us any time. Before the event, we will send registered attendees the summarized **top 20** questions in each category — scanners, PhotoShop, RIP software, printers, finishing, and marketing.

Invitations will be mailed in late August, along with the schedule of topics. The Festival is **educational** and its **free**. OK to RSVP any time - just call Kathy or John at tel 425.643.7323 or e-mail us.

Every day a Demo Day at JVH Technical

You do not need to wait for an Open House or Festival to come over to JVH Technical. Just give us a call and drop by any time you would like see some equipment or check out new media. On site at JVH in Bellevue, we have the world's best film scanners, large-format printers and printing software RIPs.

We will be happy to run a pristine scan or two for you on the new Imacon **949** scanner, process it with the Onyx or ColorByte RIP, then print it with an Epson 4000 or 7600 on the latest papers. Perhaps this can help you prime your pump and **develop new business** for you before committing to new equipment.

Agfa Eco-Solvent+ Printer Now Shipping

The new Agfa printers are available now in 64" and 87" widths. They let you print on both coated media and cheap **uncoated** vinyl at **high speed** with **excellent** image quality. The prints do not need to be laminated for outdoor use. Call for details and info package.

This newsletter has been mailed to you because 1) we do not have your e-mail address or 2) you have already requested us to send it to you via US mail. We plan to e-mail most newsletters. If you want to continue to receive them, please send your e-mail address to jvhman@aol.com. If you have no e-mail and want a hard copy, let us know, if you haven't already, so we can continue to send to you via regular US mail.
