New Fine Art Media from JVH

Entrada Fine Art Paper is a **dual-sided** 100% cotton rag paper. It utilizes multiple receiving layers for superior **ink-load capacity** - providing high **water-resistance**, instant drying, and incredible **detail and tonality**. Entrada also features a maximum **color gamut** and exceptionally **deep blacks**. These Moab papers are compatible with both dye and pigment inks and work remarkably well with the Epson **UltraChrome** inks. Entrada is available in 190gsm and 300gsm in bright **white** and **natural** versions.

Kayenta Photo is an **affordable** acid- and lignin-free, dual-sided high alpha cellulose paper utilizing the same coating as the award-winning Entrada. Don't let the **low price** of this Moab media fool you. It is one of the best photographic quality media on the market and is great for **matte photos**, **portfolios**, portraiture color **proofing** and **scrapbooking**.

The above papers come in sheet sizes of 4x6, 8.5x11, 11x17, 13x19, **17x22 for Epson 4000**, 24x36, and 35x47 inches. Roll sizes are 13, 17, 24, 44, and 50 inch. **Profiles** are available. Photobase and canvas media also available. We are locally stocking this great fine art media - call for **free samples**.

Epson Gemini² Portrait Printing System

This new **turnkey** solution is from one excellent vendor - Epson. It enables those in the business of **portrait photography** to **maximize profits** using advanced Epson digital printing technology. Using Epson 4000 printer engines, the new Gemini² system allows businesses to have **much more control** over what they do. Benefits include:

- Control the time it takes to deliver finished portraits to your customers
- Reduce dependence upon traditional color lab processing
- Produce the highest-quality prints in the industry on a variety of media
- Maximize your profitability
- Dramatically enhance your services

Demos of the Gemini² system will be held in Bellevue, WA in **mid-January**. If you are interested in attending or want more info now, please call John at 425.643.7323 or e-mail: jvhman@aol.com

Protective Laminate for Canvas

Seal has a matte thermal vinyl laminate which makes canvas **bulletproof**. When applied, the film settles into the canvas pores **maintaining** the original canvas appearance. Great for **tough applications**. Call for free samples.

Two Excellent Very Useful Free Programs

Do you receive e-mails with zillions of names in the **To:** address? This is not good. If you send out e-mails to big lists, consider using **Mach5 Mailer** — you can send e-mails, up to **200** at a time, with recipients only seeing their **single** address. Productive for you and **considerate** to your recipients. (This newsletter was sent with Mach5.) Free at www.mach5.com

How would you like to convert documents on the fly, in any Windows program to high quality e-mailable **PDFs**? It's easy with **CutePDF Writer**. Convert invoices/statements, word and page layout documents, etc. (This newsletter was made with CutePDF.) The **free** download is at www.cutepdf.com

World's Best Scanner

Our "home scanner" features **8000 ppi**, **4.9 Dmax** for stunning detail in shadow and highlight areas, **perfect focus everywhere** on the film, **200 Mb/minute** scan speed, and smart **dust removal**. As a customer favor, we're happy to run a free pristine scan on the new \$20,000 **Imacon 949** scanner, so you can experience an **industry best** scan. Just let us know if you have a favorite original that requires royal treatment.
